### **Built Stronger, Smarter, and More Efficient!**

All-season protection — Frost-proof hose bibs (on homes permitted 5/2025 and later) hel freeze damage.

Move-in ready convenience ~ Utility rooms include an electric dryer connection, saving you time and hassle.

Framing you can trust - Structural framing members are designed and inspected by independent engineers for superior integrity.

Proven energy savings ~ Every home is independently HERS tested twice, with duct systems pressure-tested to guarantee no leaks.

Weather-protected exterior walls - OSB walls wrapped in Dupont Tyvek® with a 10-year warranty protect against moisture and drafts.

A fresher kitchen - Exhaust vented to the outside removes cooking odors, smoke, and moisture; not recirculated like in many homes.

Endless hot water - Tankless water heaters (Navien® in gas, Rinnai® in electric) give you on- demand hot water while saving energy.

Storm-ready strength ~ Anchor bolts secure walls to the foundation, and hurricane straps connect walls to rafters for superior stability.

Air-tight ductwork - Mastic-sealed, insulated ducts keep your conditioned air where it belongs, improving efficiency and indoor air quality.

Water control built-in - Front gutters included as standard (on homes permitted 6/2025 and later) to protect your foundation and landscaping.

Foundation built to last - Enhanced post-tension foundation designed and inspected by a 3rd- party engineer for long-term strength and durability.

Engineered HVAC design (on homes permitted 8/2025 and later) ~ Systems are sized, inspected, and tested by 3rd-party engineers for efficiency and comfort.

Superior insulation package - R-38 blown-in attic insulation plus R-15 BIBS (Blown-In Blanket System) walls fill every gap for maximum comfort and lower bills. High-efficiency comfort systems - Lennox® 15.2 SEER (gas communities) or 16 SEER

(electric communities) HVAC delivers reliable comfort with lower operating costs.

### **Built Beyond Code. Verified Twice.**

Strength from the ground up - Your post-tension foundation is engineered and inspected twice by independent engineers, providing lasting durability and peace of mind.

Framing you can trust - Structural framing members are designed and inspected twice by independent engineers, ensuring your home's structure is sound, safe, and built to last

Comfort engineered for you - Your HVAC system is professionally sized, inspected twice, and tested by 3rd-party engineers, guaranteeing year-round comfort and maximum efficiency.

Efficiency proven, not promised - Every home undergoes HERS testing before drywall and again at closing, including duct leak testing, so you know your home delivers the energy savings we promise.
